

**Standards Revision Guide:**  
**Educators begin using revised standards for ELA/Math 2017-18**  
**Educators begin using updated standards for S/SS 2018-19**

**\*\*Teacher Login Reminder- You must request a new password the first time you login this year.**

**Practice Tests and Item Release Tests**

Updated online practice tests for all grades and subjects are available (with the exception of Physical Science).

Additional items have been released from spring 2015 and spring 2016 science and social studies tests and have been added to the respective item release tests on the site. The 2015 tests represent the entire test content given in spring 2015. Spring 2017 item release tests for all grades and subjects are also available.

**New Student Login Feature**

Students are able to un-select the guest option on the [Practice Test Site](#) login screen and login with their first name and SSID as they do for operational tests. This optional login choice requires student information be present in TIDE. The guest login remains the default option and allows anyone (e.g., parents) to experience online testing.

**Desmos Calculators**

Beginning with the 2017-2018 school year, the Ohio's State Tests will use Desmos as the online calculator. Practice tests that have the calculator tool have been updated to provide students with the Desmos calculator. The Desmos calculators will also be available on the [Student Practice Resources](#) page of the portal.

**Special Version Practice Tests**

Special version practice materials will be available on the [Student Practice Resources](#) page later in the fall. Districts will have access to large print practice tests for all grades and subjects starting at the end of September. Districts will have access to braille practice test materials for all grades and subjects starting at the end of November.
